UNEMPLOYMENT INSURANCE

Committee on Finance: Committee, in executive session, by a vote of 13 to 4, ordered favorably reported with amendments H.R. 15119, proposed Unemployment Insurance Amendments of 1966. The bill was amended in the following manner:

(1) *Benefit requirements.*—As passed by the House H.R. 15119 would not have imposed any standards on the level of benefits or the conditions under which they would be paid in the States. The Committee on Finance added standards to the bill. They are:

(*a*) Benefit amount: Individual weekly benefit amount must be at least 50 percent of the individual's average weekly wage, but limited to 50 percent of the State-wide average wage.

(*b*) Duration: Any worker who has 20 weeks of employment (or equivalent) shall be entitled to not less than 26 times his weekly benefit amount.

(*c*) Eligibility: No worker may be required to have more than 20 weeks of employment (or equivalent) in his base period to qualify for benefits.

(2) *Extended benefits.*—All of the House provisions on extended benefits for the long-term unemployed were accepted except that instead of paying 50 percent of the cost out of the Federal portion of the unemployment tax and the other 50 percent out of the State unemployment tax, all costs of the extended benefits program will be financed by the Federal portion. The committee amended the financing feature because of the burden it had imposed on the States in upgrading their regular unemployment compensation benefits.

(3) *Tax rate and wage base.*—The Federal unemployment tax rate increase to 3.3 percent (from 3.1 percent) provided by the House bill was retained. The wage base increase to $3,900 was made effective for 1968 rather than 1969 as under the House bill, and the further increase in the wage base in 1972 is to $4,800 rather than to $4,200. This greater increase in the wage base was necessitated by the committee's decision to pay the entire cost of the extended benefits program out of the Federal share of the unemployment tax.

(4) *Small firms.*—The House provision extending coverage to employers of one or more workers during each of 20 weeks in a calendar year or employers of payrolls of $1,500 in a calendar quarter is deleted, leaving the provision of present law which limits coverage to employers of four or more workers during each of 20 weeks in a calendar year.

(5) *Multistate workers.*—Employees engaged in work in more than one State will have all of their employment included for purposes of determining their eligibility for unemployment benefits without regard to variations in State laws.

(6) *Life insurance salesmen.*—The committee directed that its report include a statement of intent that the present exclusion for full-time life insurance salesmen remunerated solely by way of commission would not be upset because the salesman is provided tax-free fringe benefits (such as group life insurance).

Steel imports.—In addition to the action on the unemployment insurance bill, the chairman announced that the committee had directed its staff to conduct a study of imports of steel mill products into the United States. This matter had been the subject of hearings by the committee and a resolution (S. Res. 149) directing such a study by the Department of Commerce was pending before the committee. In instructing its staff the committee in effect disposed of S. Res. 149.

INDEX

This index is keyed to the DIGEST as published with the DAILY CONGRESSIONAL RECORD; the page references below are listed accordingly, as D5, D6, etc.

The bill numbers of proposed legislation are affixed to the subject references so that the subject matter of each measure will be readily available. The breakdown under each subject divides the action on the proposals according to: Communications from the President, hearings or actions by House or Senate committee or joint or conference committee, consideration or action by House or Senate Chamber on the measures, and the public law number when the bill or resolution has been enacted.

The use of an index so devised serves a twofold purpose: Gives all references to such legislation in the DIGEST as well as accounts for the status and history of each bill or resolution.
